MSE BRAND FEATURES & BENEFITS

MSE brand's extended yield cartridge offers up to 44% yield increase when compared to the OEM.

This MSE brand product has been approved using the markets most exhaustive testing protocols, including: environmental stress testing, accelerated aging testing, and shipping simulation.

Great dealer margins available to OEM customers seeking best alternatives to very costly OEM cartridges.

Built utilizing patented laser-cutting technologies allow for precise re-engineering of this challenging model, resulting in superior OEM-alternative quality.

Ideal for MPS (Managed Print Solution) environments.

Patented cartridge separation and welding technologies allow for precision alignment and superior cartridge integrity and seal bursting strength.

Proprietary robotic routing and other conversion technologies enable immediate availability.

OEM INFORMATION

Released in April 2010, the P1102 series replaces the P1006 series.

The MF200 series is ideal for home and small office customers.

Every aspect of our MSE brand products, from quality and reliability to aesthetics and environmental impact, is thoroughly analyzed on an ongoing basis. We look for areas of improvement beyond the industry standard and create ground-breaking technologies to keep pace with OEM design. The result is Your Best Alternative to the OEM.

MPS Engineered® extended yield cartridges are ideal for managed print services environments. Cutting-edge technology ensures superior performance and consistency from the first page printed through the last.

Ensuring long-term quality and reliability is the foundation of customer satisfaction. We understand that without strict adherence to quality standards, you simply cannot have a product that is competitive to the OEM. Our commitment is ensured by the most rigorous 5 step QC process in the industry.
