

MSE REMANUFACTURED EXTENDED YIELD COLOR TONER SERIES FOR HP CP4525

NOW AVAILABLE

MPS ENGINEERED®

NORTH AMERICA RELEASE

COMPATIBLE WITH:

HP® Color LaserJet CP4025dn, CP4025n, CP4525dn, CP4525n, CP4525xh

Machine Type: **Color Laser Printer**

Print Speed: **35 ppm (CP4025), 42 ppm (CP4525)**

Print Resolution: **1200 x 1200 dpi**

Page Yield: **See Chart**

MSE KEY BENEFITS

MSE's extended yield cartridge offers up to 20% yield increase when compared to the OEM.

Secondary Cleaning System® (SCS) Technology, keeps the PCR totally clean of toner additive throughout the life of the cartridge. It eliminates common issues, such as streaking, dirty print, and backgrounding.

SCS ensures a clean-running cartridge in longer life color applications, Toner Additive Build up (TAB) is a particularly serious issue and SCS eliminates these defects associated with build up. 100% performance guarantee.

MSE approved this product using the market's most exhaustive testing protocols, including: environmental stress testing, accelerated aging testing, shipping simulation and ISO 19798 testing.

Every aspect of our MSE brand products, from quality and reliability to aesthetics and environmental impact, is thoroughly analyzed on an ongoing basis. We look for areas of improvement beyond the industry standard and create ground-breaking technologies to keep pace with OEM design. The result is Your Best Alternative to the OEM.

Secondary Cleaning System® (SCS) technology adds a new critical cleaning component to the cartridge, preventing toner buildup on the OPC and PCR for the full life of the cartridge.

Advanced Color Technologies is the culmination of years of research, development, and employed resources with the goal of providing the industry's best OEM-alternative for color toner cartridges.

This product features patent-pending technology. Designed to eliminate problems while improving the reliability and consistency of each and every cartridge.
