MSE BRAND FEATURES & BENEFITS

Secondary Cleaning System® (SCS) Technology, keeps the PCR totally clean of toner additive throughout the life of the cartridge. It eliminates common issues, such as streaking, dirty print, and backgrounding.

SCS ensures a clean-running cartridge in longer life color applications, Toner Additive Build up (TAB) is a particularly serious issue and SCS eliminates these defects associated with build up. 100% performance guarantee.

This MSE brand product has been approved using the market's most exhaustive testing protocols, including: environmental stress testing, accelerated aging testing and shipping simulation.

OEM INFORMATION

Released in December 2011, the M300/M400 printer series replaces the CP2025 series.

Every aspect of our MSE brand products, from quality and reliability to aesthetics and environmental impact, is thoroughly analyzed on an ongoing basis. We look for areas of improvement beyond the industry standard and create ground-breaking technologies to keep pace with OEM design. The result is Your Best Alternative to the OEM.

Advanced Color Technologies is the culmination of years of research, development, and employed resources with the goal of providing the industry's best OEM-alternative for color toner cartridges.

ISO 9001:2008 certification is a global standard that the world's leading companies use to establish quality management system. ISO 9001:2008 connotes quality to global consumers and MSE brand adheres to these standards and strives to continuously improve, therefore providing the best customer experience.

MPS Engineered extended yield cartridges are ideal for managed print services environments. Cutting-edge technology ensures superior performance and consistency from the first page printed through the last.
