ADVANTAGES OF MSE EXTENDED YIELD COLOR TONER CARTRIDGES

- Differentiate yourself from the competition AND compete with aggressive OEM price programs.
- Most diverse range of extended yield color toner cartridges for MPS environments.
- With up to 33% increase in yield, offers optimal performance and best cost-per-page solution.
- Save customers freight and space and provide the most environmentally friendly option.

OEM INFORMATION

Released in August 2012, the M251 printer series replaces the CP1215 series.

Every aspect of our MSE brand products, from quality and reliability to aesthetics and environmental impact, is thoroughly analyzed on an ongoing basis. We look for areas of improvement beyond the industry standard and create ground-breaking technologies to keep pace with OEM design. The result is Your Best Alternative to the OEM.

Advanced Color Technologies is the culmination of years of research, development, and employed resources with the goal of providing the industry's best OEM-alternative for color toner cartridges.

Secondary Cleaning System® (SCS) ensures a clean-running cartridge in longer life color applications, Toner Additive Build up (TAB) is a particularly serious issue and SCS eliminates these defects associated with build up. 100% performance guarantee.

MPS Engineered extended yield cartridges are ideal for managed print services environments. Cutting-edge technology ensures superior performance and consistency from the first page printed through the last.
