

Extended Yield Cartridges

INCREASED
OUTPUT
MINIMIZED
COST-PER-PAGE

Clover Imaging Group offers multiple brands of extended yield cartridges that surpass even the highest OEM page yields. All of Clover's extended yield cartridges are designed, engineered, and manufactured to offer superior quality and performance, higher yields, and lower cost-per-page without sacrificing density or print quality.

While some aftermarket solutions may simply offer more toner in the cartridge, Clover's extended yield toner cartridges are designed to withstand the additional component wear that results from the increased page counts.

Maximize your MPS opportunities and provide better value by adding Clover's extended yield cartridges to your product offering today!

BENEFITS OF CLOVER EXTENDED YIELD CARTRIDGES

- Ideal for Managed Print Solution environments
- Maximum value and minimized cost-per-page
- Guaranteed print density performance throughout the life of the cartridge
- Broad product assortment for HP and Lexmark printers
- 100% guaranteed page yield
