

PROTECT YOUR CONSUMABLES BUSINESS FROM BIG BOX STORES & ONLINE RETAILERS

Clover's Auto Supplies Management (ASM) program is an auto replenishment subscription service that helps you lock in your customers' toner business. Our self-learning and adaptive ASM software program identifies when a printer is running out of toner and automatically triggers an order. Toner is then shipped directly to your customers, exactly when they need it!

HOW ASM WORKS:

- 1 DCA installed on a network computer
- 2 Toner levels monitored
- 3 Toner automatically re-ordered at chosen re-order point
- 4 Supplies shipped
- 5 Delivered to device location

HOW DO BUSINESSES BENEFIT FROM AUTO SUPPLIES MANAGEMENT?

No inventory management

Reduce current spend on printing supplies inventory and expense

Product accuracy, no longer worry about getting the right toner for the right device

Fast, reliable delivery

100% performance guarantee
