

HELP YOUR CUSTOMERS RAPIDLY IDENTIFY & CONTROL PRINTING COSTS

Clover's Remote Monitoring software gives you the ability to view your customer's entire print environment, including supply and service needs on output devices. You can choose from two remote monitoring platforms, PrintFleet® or FMAudit®. These powerful software platforms empower you to deliver actionable business intelligence to your customers including:

SUPPLIES FULFILLMENT

View customers' exact consumable levels remotely:
toner, fusers, drums, and maintenance kits

Ensure your cartridges are being used by tracking the
unique serial number on the chip

Set customized, automated alerts for low toner levels

SUPPLIES FULFILLMENT

Set automated service alerts

Set proactive service flags/reminders

Asset management and consulting

SECURE AND RELIABLE REMOTE MONITORING TECHNOLOGY

Clover's Data Collection Agent (DCA) is installed on a single workstation at your customer's location in under 5 minutes. Your customer's printer information will be available 24 hours a day, seven days a week via the Clover MPS secure website. No personal or user data is collected with the software; only the core metrics needed to maintain and manage printing assets are gathered.
