

ACCURATELY PRICE CONTRACTS & SALES PROPOSALS

You will have complete confidence in MPS contract profitability with Clover's Managed Print Services TCO software.

This simple and accurate Total Cost of Ownership (TCO) pricing tool is powered with BEI Services Worldstats™ data to automatically calculate accurately and model specific services pricing per page.

ELIMINATE PRICING HEADACHES

This intuitive, web-based TCO tool enables resellers to accurately price contracts by linking it to individual account information. Eliminate pricing headaches and time wasted in maintaining pricing spreadsheets or through manual processes. Clover's TCO software automatically populates each of your customer's devices while offering flexibility for supplies, equipment, coverage, and profit margins. Transparent processes and pricing give resellers complete control of their MPS contracts.

GENERATE SALES PROPOSALS WITH ONE CLICK

User-friendly TCO software generates documents with one click. This allows resellers to easily populate customers' existing and proposed pricing into one branded proposal and other sales support documents. Clover's TCO software also creates multiple proposals per account with ease to support your sales process and ongoing account reviews.
